

In the Claims (Clean copy as amended)

212
Sub
B15

1. (Amended) A doll's skin comprising a seamless, molded elastomeric material adapted to be dressed, fitted to and removed from a doll to transform the doll into a different character or object.

213

5. (Amended) The skin of claim 4 wherein the copolymer is selected from the group consisting of one of the following: ethylene vinyl acetate copolymer, styrene-butadiene-styrene, styrene-isoprene-styrene, styrene-diene, styrene-isoprene-butylene block copolymers containing mineral oil, branched styrene copolymer, styrene butadiene, styrene-butadiene triblock, styrene-isoprene-styrene linear block polymer, styrene-butadiene radial block copolymer, butadiene-styrene copolymer.

Sub
B2

6. (Amended) The skin of claim 1 wherein the elastomeric material has a 100% modulus of elasticity between about 120 and 350KN/m².

Sub
B3

10. (Amended) A doll's garment comprising a seamless, molded elastomeric material which is adapted to be dressed, fitted and removed from a doll having a height in the range of above 8cm to about 20 cm.

11. (Amended) The doll's garment of claim 10 wherein the elastomeric material is a synthetic polymer.

12. (Amended) The doll's garment of claim 11 further comprising at least one integrally molded detail.

13. (Amended) The doll's garment of claim 11 wherein the elastomeric material has a 100% modulus of elasticity between 120 and 350KN/m².

14. (Amended) The doll's garment of claim 13 wherein the elastomeric material has a 100% modulus of elasticity between 240 and 280KN/m²..

15. (Amended) A play set comprising, in cooperative combination, a doll having a height in the range of 8 cm to about 20 cm, donned and fitted with a seamless synthetic polymer garment which removably encloses around at least a part of the doll and is adapted to be removed, dressed and refitted again to the doll.

17. (Amended) The play set of claim 16 wherein the synthetic polymer has a 100% modulus of elasticity between about 120 and 350KN/m².

18. (Amended) The play set of claim 17 wherein the synthetic polymer has a 100% modulus of elasticity between about 240 and 280KN/m².

Please cancel claims 2 and 19 without prejudice and without disclaimer of the subject matter contained therein.
